**Qulturum – Center for Learning and Innovation in Healthcare**

Qulturum is a center for development of improvement knowledge and innovation in healthcare. Qulturum is also the improvement unit at Region Jönköping County, responsible for the healthcare services in Jönköping County, located in the south of Sweden. Qulturum is engaged in several improvement activities both on a regional, national and international level. Our focus is developing knowledge concerning patients, patient involvement, cooperation and flow; inter professional teams, leadership, management and the design of healthcare.
